

Information Day of FORBIO project in Cherkasy «Sustainable bioenergy feedstock production – additional income to farmers»

in frames of

International agro-industrial expo-fest AGROSHOW Ukraine 2018

<http://agroshow.com.ua>

Date: 16 May 2018

Venue: Cherkasy, Smilyanska street, 168

Goal: To inform agrarians about potential, opportunities and technologies of sustainable biomass energy plantations for energy production in Ukraine.

Target audience: agrarian companies, farmers, municipalities, business, state institutions.

AGENDA

Time	Title of presentation	Speaker
11:30 - 12:00	Registration. Morning coffee	
12:00 – 12:20	Welcome. Development of bioenergy in Ukraine	Georgii Geletukha, UABio
12:20 – 12:40	Fostering sustainable feedstock production for advanced biofuels on underutilized land in Europe. FORBIO project of Horizon 2020	Tetiana Zheliezna, SEC “Biomass”
12:40 – 13:00	Presentation of the Ukrainian case study site of the FORBIO project of Horizon 2020.	Oleksandra Tryboi, SEC “Biomass”
13:00 – 13:20	Results of agronomic and techno-economic feasibility of growing energy crops for Ukrainian case study site. FORBIO project of Horizon 2020	Oleksandra Tryboi, SEC “Biomass”
13:20 – 13:40	Prospects for creation of biofuels market in Ukraine	Anna Pastukh, SEC “Biomass”
13:40 – 14:30	Lunch	
14:30 – 14:50	Prospects of biomass crops use for energy production in Ukraine	Semen Drahnev, SEC “Biomass”

This project has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No 691846.

COORDINATOR
WIP Renewable Energies
Dr. Rainer Janssen
Head of Unit Biomass Department
rainer.janssen@wip-munich.de

FORBIO PROJECT PARTNERS

14:50 – 15:10	Biogas energy – efficient tool to enhance the economic sustainability of agricultural enterprises	Yuri Epstein, Accord Ltd
15:10 – 16:00	Networking and coffee	
16:00	Closure of the Information Day	

Date: 17 May 2018

Venue: Cherkasy, Smilyanska street, 168

Goal: To inform agrarians about practical issues of biomass crops cultivation and use for energy production in Ukraine.

Target audience: agrarian companies, farmers, municipalities, business.

AGENDA

Time	Title of presentation	Speaker
11:30 - 12:00	Registration. Morning coffee	
12:00 – 12:30	How to choose a biomass crop for cultivation	Oleksandra Tryboi, SEC “Biomass”
12:30 – 13:00	Agronomic requirements for growing biomass crops	Oleksandra Tryboi, SEC “Biomass”
13:00 – 13:30	Financing opportunities for biomass projects in Ukraine	Tetiana Zheliezna, SEC “Biomass”
13:30 – 14:30	Lunch	
14:30 – 15:00	How to harvest and store biomass of energy crops	Semen Dragniev, SEC “Biomass”
15:00 – 15:30	Bioenergy utilisation pathways for biomass of energy crops	Tetiana Zheliezna, SEC “Biomass”
15:30 – 16:00	Networking and coffee	
16:00	Closure of the Capacity Building Event
